

**LOCUM MEDICAL ONCOLOGIST (1 year term)  
Tom Baker Cancer Centre (TBCC), Calgary, Alberta  
CancerControl Alberta, Alberta Health Services**

The Tom Baker Cancer Centre (TBCC) in Calgary is seeking a 1 Year locum Medical Oncologist to start as soon as possible. You will join an existing team of 26 Medical Oncologists.

The Tom Baker Cancer Centre, a component of a provincial program of cancer control is the tertiary referral centre and the main cancer treatment, research and education facility for southern Alberta. Approximately 7,000 new patients are seen each year at the Centre in state-of-the-art facilities. Radiation services for southern Alberta are provided at TBCC by 21 Radiation Oncologists, and facilities include 9 linear accelerators, CT simulation, intensity modulated radiotherapy, brachytherapy, and stereotactic capabilities. The Provincial Bone Marrow Transplant program is also delivered in Calgary. Postgraduate training programs in Medical Oncology and other oncology disciplines (Radiation, Gynecological, Surgical, Hematology, and Palliative Care) are fully accredited by the RCPSC. The TBCC has a very active clinical research program, including in-house investigator lead, cooperative groups, (such as the CCTG and N.R.G. (N.S.A.B.P., R.T.O.G., G.O.G.)), and industry trials. Integration with the University of Calgary's Arnie Charbonneau Cancer Institute enables a strong translational and basic research focus.

The Calgary Health Zone comprises four teaching hospitals situated in the City of Calgary, and serves residents of Southern Alberta, and portions of British Columbia and Saskatchewan. The Department of Oncology is part of the Cumming School of Medicine and to help accommodate growth both in clinical service delivery and comprehensive cancer care (research and education) Alberta Health Services is currently undergoing functional planning for a new, free-standing cancer centre to be situated on the Foothills Hospital footprint. The successful applicant will have an opportunity to help shape this exciting new initiative.

Named a cultural capital of Canada and one of the best places to live in the world, Calgary is a city of leaders - in business, community, philanthropy and volunteerism. Calgarians benefit from historically one of the strongest economies in the nation and enjoy more days of sunshine per year than any other major Canadian city. Calgary is less than an hour's drive from the majestic Rocky Mountains and boasts the most extensive urban pathway and bikeway network in North America.

Qualifications include an MD degree and Canadian specialist certification in Medical Oncology, or the equivalent. You must be eligible for licensure as a specialist by the College of Physicians and Surgeons of Alberta and for appointment to the medical staff of AHS. Special training and/or a record of academic success in areas such as epidemiology, clinical trials, investigational new drug development, translational research and/or health services research would be desirable.

Preference will be given to Canadian citizens or those with permanent resident status.

Please submit a curriculum vita, a statement of career goals and the names of three referees to:
