RE: Fellowship Posting

Dear Applicant,

The Oncology Outcomes (O2) and Precision Oncology and Experimental Therapeutics (POET) programs are recruiting one full-time medical oncology clinical and research fellow, under the supervision of Dr. Winson Cheung and Dr. Steven Yip at the Tom Baker Cancer Centre/Arthur JE Child Comprehensive Cancer Centre. Construction of our new Calgary Cancer Centre is currently underway with a vision to become the largest Canadian cancer centre of excellence by 2024. The O2 and POET programs are world renowned for their work in real world outcomes cancer research and precision oncology research. The funded fellowship position may be 1-2 years with a clinical focus in genitourinary cancers. Completion of medical oncology residency training is required, and international applicants are welcome.

Our fellows are selected by a competitive process whereby they submit applications with accompanying resumes to our fellowship director, Dr. Safiya Karim. A review committee (Dr. Yip, Dr. Karim, Dr. Alimohamed, Dr. Ruether, Dr. Heng, and Dr. Lee-Ying) selects the fellows for both clinical and research positions (<https://departmentofoncology.com/educationtraining/fellowship/>).

If you are interested in applying for this position, please send your CV and cover letter, as well as any of your inquiries, to Michelle Liane Dean at mlisaac@ucalgary.ca

Thank you for considering this opportunity.

Sincerely,
Steven Yip

A handwritten signature in black ink, appearing to be "S. Yip".
